

"Shirley"

Crane Attachment

Designed and built by Anderson Manufacturing this crane attachment is powered by Twin 400hp Turbo diesel engines that are attached to two Allison 5-speed transmissions. Shirley is one of the largest and most powerful foundation drill rigs in the world.

MAIN FEATURES

CRANE SIZE:	200 - 225 ton
WEIGHT:	66,000lbs
TORQUE:	1,080,000 ft lbs.
DEPTH:	160 feet
MAX. DIAMETER:	30 ft.
OPTIMAL DIAMETER:	5 ft. - 13 ft.
MATERIAL:	Unlimited DOWN PRESSURE: weight of drilling tool (8,000 lbs. To 30,000 lbs.) and Kelly bars (52,000 lbs.), plus optional weight collar system (up to 27,000 lbs.).
ACCESS WIDTH:	16 ft
REACH TO HOLE CTR:	35 ft.
WORK RADIUS:	40 ft. min
